INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/AU2003/001347

Basis of the report			
With regard to the elements of the international application:*			
X the international application as originally filed.			
the description, pages, as originally filed,			
pages, filed with the demand,			
pages, received on with the letter of			
the claims, pages, as originally filed,			
pages, as amended (together with any statement) under Article 19,			
pages, filed with the demand,			
pages, received on with the letter of			
the drawings, pages, as originally filed,			
pages, filed with the demand,			
pages, received on with the letter of			
the sequence listing part of the description:			
pages , as originally filed			
pages, filed with the demand			
pages, received on with the letter of			
With regard to the language, all the elements marked above were available or furnished to this Authority in the language in			
with regard to the language, at the oterhelds unless otherwise indicated under this item. which the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language which is:			
These elements were available of furnished to this relationship the language of a translation furnished for the purposes of international search (under Rule 23.1(b)).			
the language of publication of the international application (under Rule 48.3(b)).			
the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2			
and/or 55.3).			
3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international			
preliminary examination was carried out on the basis of the sequence fisting.			
contained in the international application in written form.			
filed together with the international application in computer readable form.			
furnished subsequently to this Authority in written form.			
furnished subsequently to this Authority in computer readable form.			
The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.			
The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished			
4. The amendments have resulted in the cancellation of:			
the description, pages			
the claims, Nos.			
the drawings. sheets/fig.			
The state of the same of the amendments had not been made, since they have been considered to			
and the disclosure as filed as indicated in the supplemental box (2000)			
* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).			
** Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report			

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/AU2003/001347

Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

Statement		•
Novelty (N)	Claims 1-38	YES
110102-9 (11)	Claims	NO
Inventive step (IS)	Claims 1-38	YES
	Claims	NO
Industrial applicability (IA)	Claims 1-38	YES
	Claims	NO

Citations and explanations (Rule 70.7)

The three citations listed in the International Search Report do not affect the novelty or inventiveness of the present claims.

The first citation is rendered moot by the proviso's contained in the definition of General Formula I, the second and third citations merely describe compounds that modulate the activity of a GPCR without describing the compounds used in the present application.

The industrial applicability of the claims is not in doubt.
